

## Services

Work Injuries · Auto Accident Injuries · Pain Management

We understand the causes and treatment of persistent pain. Our helpful staff at Highway 7 Chiropractic offers the most modern medical and chiropractic techniques for painless, effective relief.

- EMS (Electric Muscle Stimulation) - reduces and relieves muscle spasms and retrains the muscle to hold realignment. Helps to increase blood circulation to aid in the healing process.

- Therastim - an electrical therapy that is much more aggressive and deeper penetrating than standard EMS. Helps to break up scar tissue.

- Intersegmental Traction - helps to improve flexibility and mobility to the spine, expands disc space, increases vital nutrients and fluids in the discs. Helps to strengthen ligaments along the spine to hold realignment.

- Diathermy - stimulates blood flow, which increases vitamins and minerals, and removes toxins, resulting in a faster healing process.

- Flexion/Distracton Table - Increases fluids and nutrients to help repair and rehabilitate damaged discs. Increases disc space, there fore relieving pressure on the disc.

- Chi -Gong - reduces pain, releases adhesion, reduces trigger points, stimulates immune function, and rehabilitates, to minimize reoccurrence of the injury.

- Disc Decompression - non-surgical treatment for bulged, herniated and degenerative spinal disc disease. It decompresses the disc space causing a suction to occur between the vertebrae allowing the bulge or herniated disc to retract back into alignment. It is proven effective in 80% of patients who were treated.

- Active Rehabilitation - the process of actually using the joints being treated in a deliberate fashion as prescribed by the doctor to strengthen ligaments, muscles and tendons. Helps prevent the injured joint from failing when placed under stress.

- Posture Pump - remodels the natural curve of the spine to help reduce pressure off disc space and helps prevent future reoccurrence.

Almost all insurance is accepted! Inquire with one of our knowledgeable staff members to see if your benefits cover chiropractic care - we do all the calling and paperwork for you! Even if you are without insurance, we can set you up on a payment plan that is budget friendly while attentive to your wellness needs.

At Highway 7 Chiropractic, we do not treat you based on the amount of money you can provide. We treat you based on the amount of pain you are experiencing.

Contact one of our friendly staff at (816) 224 - 6200 to schedule an appointment - or simply walk into our office and see a doctor today!
